

# Humanistic studies

## **I Study program - International politics and security with modules:**

- a) International relations;**
- b) European studies;**
- c) American Studies;**
- d) Balkan and Mediterranean studies;**
- e) International security;**
- f) Cyber security**

II Study program - Gender studies;

III Study program - Communicology and media;

IV Study program - Political theory and analysis.

After successful completion of master's academic studies in the fields of economics, international politics and security, political theories and gender studies, the student will be able to:

- Use theoretical and practical knowledge in areas of interest;
- Apply a theoretical approach;
- Apply a critical approach when acquiring new knowledge and skills;
- Use domestic and foreign academic sources in order to improve one's own knowledge -  
Independently conduct, participate and give initiatives for theoretical research.

In addition to the above general outcomes, after completing the study program within various modules, the student will be able to:

- Use narrowly specialized theoretical and practical knowledge in a certain area;
- Apply contemporary and traditional theories and methods of science for which they have chosen;
- Use an interdisciplinary approach in analyzing problems from a specific field;
- Participate in larger project teams dealing with projects within various study programs.
