

YILDIZ TECHNICAL UNIVERSITY

Erasmus+ International Credit Mobility **KA-171**

Erasmus International Credit Mobility Program (ICM) has a global reach, facilitating mobility that extends beyond Europe and encompasses exchanges to other parts of the world. Program Countries are those fully engaged in the Erasmus program, and **Turkey is one of the 33 Program Countries**. Besides program countries, partner countries should be one of non-EU countries.

Students and staff from partner institutions have the opportunity to have their exchanges fully funded by YTU.

- Yıldız Technical University has successfully received funding from the Turkish National Agency to support student and staff exchanges since 2004.
- Each partnership is established through a single annual project application to European Commission every February.
- Once the budget is received, the specified mobilities outlined in the agreement will be implemented during the project duration.

Countries where we have previously conducted mobility programs include various non-EU countries such as: Dominican Republic, Malaysia, South Africa, Benin, Panama, Morocco, Georgia, Jordan, Bosnia Herzegovina, Nepal, Kosovo, Albania, Ukraine, Azerbaijan, Moldova, Japan, China, India, Australia, Canada, Montenegro, Egypt, Chile, Argentina, USA etc.

- Grant amount for incoming/outgoing students: **800 € / 700 € monthly**
- Grant amount for incoming/outgoing staff: **140 € / 180 € per day**
- All incoming/outgoing students and staff are also funded for their travel expenses, calculated based on the travel distance.
- YTU covers travel expenses and provides monthly/daily grants, depending on the incoming and outgoing student and staff mobility.
