

## INTERACTIVE HIGH-TECH CAREER WORKSHOPS WITH PAWEŁ BURZYŃSKI FOR SCHOOLS

### IF YOUR STUDENTS ARE:

**Interested in:**

mathematics, science, or technology,

**Curious if:**

they could land a successful career in high-tech,

**Eager to:**

use their creativity to solve problems.

then challenge them and organize with us an interactive workshop session lead by Paweł Burzyński and allow them to:

- 01 discover how software problems are approached in real life,
- 02 learn what they can do with their talent from a high-tech insider,
- 03 figure out how to solve interesting problems that Google engineers face every day.

### Meet Paweł Burzyński:

- Chief Technology Officer at UView and PTB Entertainment,
- Ex-Googler,
- Cambridge Computer Science graduate,
- Cambridge Judge Business School Business and Management graduate,
- Research paper published at MIT at age of 18,
- International Olympiad in Informatics (IOI) medalist,
- Gold medalist at Collegiate Northwestern European Programming Contest.

### TWO WORKSHOP SESSIONS

#### [1h] Career Session:

- Students will share their interests and discuss career opportunities.
- Paweł will share an overview of the recent advancements and challenges in software engineering.
- Paweł will explain what are the most sought after skills and the most interesting career prospects in the high-tech industry.

#### [2h] Engineering Session:

- Students will use critical thinking skills to uncover Google Search Engine and identify what engineering challenges they would face when implementing such services themselves.
- Paweł will select interesting algorithms (such as information search, indexing, classification, and recommendation engine) and lead a discussion on how to design them.
- Students will work on solutions in groups, learn how to conceptualize their ideas, and explore the mathematics behind their implementation.

### EVERY PARTICIPANT SHOULD HAVE

**Laptop and headphones**

**Working Internet connection**

**Installed Zoom**

**Paper and pens**

### SEMI-ONLINE FORMULA

Participant are in the classroom with a school representative, and Paweł leads workshops online.
